EDUCATION

Imperial College London, London, England, UK

Sept 2025 – Sept 2026

Master of Science (MSc): Statistics

Relevant courses: Computational Statistics and Machine Learning, Applied Statistics, Advanced Simulation Methods, Spatial Statistics, Time Series Analysis, Deep Learning

Pomona College, Claremont, California, USA

Aug 2021 – May 2025

Bachelor of Arts (BA): majors in Mathematics (Statistics) and Spanish

GPA 3.9/4.0, Pomona College Scholar, Llewellyn Bixby Prize (Best Sophomore Mathematics Student)

Relevant courses: Advanced Linear Algebra, Religious Ethics, Spanish Transition Almodóvar

RESEARCH EXPERIENCE & PROJECTS

Master's Thesis in Statistics

Jan 2026 – present

Imperial College London – advised by Oliver Ratmann

- Compile preliminary literature review on neural surrogates for spatial inference with four colleagues
- Organize weekly meetings to review relevant concepts and implementations of neural networks
- Meticulously develop novel neural surrogate methods for application to social contact phenomena

Senior Thesis in Mathematics (with Distinction)

Jun 2024 – May 2025

Pomona College – advised by Jemma Lorenat & Shahriar Shahriari

- Investigated the historical intersection of statistical methods and eugenics in Britain circa 1900
- Built database of 700 full-text statistics manuals, ensuring compliance with publishing licenses
- Evaluated presence of eugenic ideology in statistics pedagogy via text mining/sentiment analysis
- Consistently met biweekly deadlines throughout planning, research, and writing stages of project

Statistical Linear Modeling Project

Oct 2024 – Dec 2024

Harvey Mudd College – advised by Talithia Williams

- Created accurate linear models of life expectancy via medical, geographic, and economic data
- Produced analysis of model efficacy, accounting for both predictability and communicability

STEM Education Project

Oct 2023 – Dec 2023

Pomona College – advised by Janice Hudgings

- Designed survey measuring quality of learning in STEM courses, with response rate >70% of students
- Delivered survey data analysis to departments, which were incorporated into annual teaching audit

Summer Undergraduate Applied Mathematics Institute

May 2023 – Aug 2023

Carnegie Mellon University – advised by Ryan Moruzzi, Jr.

- Coordinated team of four students researching zero-forcing processes in graph theory
- Established propagation time bounds for new method of zero forcing on common graph families
- Devised algorithm in Python/SAGE to model long-term behavior of zero-forcing on networks

COMMUNICATION & INTERPERSONAL EXPERIENCE

Writer, Copyeditor, and Data Analyst

Sep 2025 – present

Felix (Imperial College London Newspaper), London, England, UK

- Contribute regular articles on various topics, including opinions/editorials and book reviews
- Prepare weekly newspapers via timely proofreading, image licensing, and layout management
- Manage and visualize confidential data from student body surveys on sexuality and drug use

Humanities Studio Fellow

Aug 2024 – May 2025

Pomona College, Claremont, California, USA

- Selected as one of six fellows to contribute to interdisciplinary conversations on misinformation and conspiracy theories, immigration and diaspora, digital privacy, and gender inequality
- Initiated discussions on the limits of AI and LLMs in universities, in both research and teaching
- Adapted reports on statistics and machine learning to non-technical audiences

Department of Mathematics and Statistics Mentor and Grader

Aug 2022 – May 2025

Pomona College, Claremont, California, USA

- Designed revision materials, led weekly review, and graded homework for 30-80 students per semester
- Recipient of Bruce Jay Levy Prize, awarded for demonstrated commitment to collaborative learning and inclusivity in mathematics teaching/education

Teaching Assistant

Jun 2022 – Jul 2022

1-2-1 Math Program (remote)

- Led team of 15 students through mathematics curriculum designed to bridge gaps in secondary school
- Promoted students' academic growth and analytical thinking via mathematical problem-solving

Museum Docent (Legacy Youth Leadership Program)

Mar 2020 – Aug 2020

Birmingham Civil Rights Institute, Birmingham, Alabama, USA

- Explained key events in the history of American civil rights to visitors of all ages & backgrounds
- Connected galleries and local history to modern day through engagement with current events
- Set record for longest win streak in weekly American civil rights history quiz

PRESENTATIONS

- | | |
|---|-------------|
| "The Historical Confluence of Statistical Linear Modelling and Eugenics" | 7 Mar 2025 |
| Pomona College Department of Mathematics and Statistics Senior Seminar, Claremont, CA. 20-minute oral presentation. | |
| "The Mixing of Eugenics and Statistics in English-Language Pedagogy in the 20th Century" | 15 Feb 2025 |
| Claremont Seminar in the History and Philosophy of Mathematics, The Alchemy of Mixing Mathematics Workshop, Claremont, CA. 20-minute oral presentation. | |
| "Positive Semidefinite Leaky Zero Forcing: Preliminary Report" | 4 Jan 2024 |
| Joint Mathematics Meetings, San Francisco, CA. Poster presentation. | |
| "Positive Semidefinite Leaky Forcing – A New Variation of Zero Forcing" | 27 Oct 2023 |
| SACNAS National Diversity in STEM Conference and Modern Mathematics Workshop, Portland, OR. Poster presentation. Awarded for excellence in undergraduate poster. Travel funded by Institute for Mathematical and Statistical Innovation (IMSI). | |

SKILLS

- Languages: English (fluent), Spanish (fluent)
- Computing: R (tidyverse) and Python (Keras/PyTorch, Pandas, NumPy), LaTeX, Git/GitHub
